MAINTENANCE & EMERGENCY SERVICES 2

Full-time | 40-hour work week

POSITION OVERVIEW

The Greater London International Airport Authority invites applications for a Maintenance & Emergency Services position. This role is integral to maintaining safe, efficient, and compliant airport operations and supporting emergency response services, including Aircraft Rescue and Fire Fighting. The successful candidate will perform their duties in accordance with regulatory and company standards. This is a shift-based position that supports 24-hour-a-day, 365-day-a-year airport operations.

KEY RESPONSIBILITIES

- Grounds, facilities, and infrastructure maintenance: Perform routine maintenance on airport equipment, including fueling, lubricating, changing filters, and replacing attachments; maintain airport infrastructure such as fences, signage, and painted surfaces; complete repairs to airport-owned facilities and fixed field installations; and carry out housekeeping duties, including minor repairs, bulb replacements, and floor drain and oil separator maintenance.
- Airfield and property operations: Maintain landscaping and snow removal services on airport property and contracted sites; escort airfield activities; paint parking lot lines, curbs, and other marked areas; complete cleaning tasks such as window washing and power washing; and perform crack sealing and sweeping on airport and contracted properties.
- Equipment operation and manual labour: Operate heavy, medium, and small equipment used in the construction and maintenance of runways, aprons, taxiways, drainage systems, roads, buildings, and parking areas; perform manual tasks such as refuse and recycling collection, cleaning, and landscaping using both hand tools and specialized machinery.
- Inspection, reporting, and compliance: Record data electronically and manually to maintain reports, logs, and registers; inspect and evaluate runways, taxiways, aprons, braking conditions, foreign object presence, and airfield lighting; identify hazards and submit reports; and notify the mechanic, supervisor, or Red Leader, as applicable, of equipment discrepancies or malfunctions while taking appropriate corrective action.
- Safety, emergency response, and training: Participate in wildlife control, safety, security, and emergency response programs; maintain all required training to meet Transport Canada and Canadian Aviation Regulations requirements; operate ERS vehicles and respond to aircraft incidents, structural fires, fuel spills, bomb threats, medical events, environmental incidents, and other emergencies in accordance with the Airport Emergency Response Plan; provide basic life support and first aid as needed; and administer the AVOP practical exam.
- Additional duties: Perform other related duties as assigned.

QUALIFICATIONS

- Experience serving in a firefighting capacity.
- Ability to safely operate maintenance vehicles and equipment in winter conditions.
- Ability to work outdoors in varying weather conditions and perform physically demanding tasks, including lifting, shoveling, and repetitive motion.
- Flexible availability, including early mornings, nights, weekends, holidays, and on-call shifts during snow events.
- A valid DZ driver’s licence.
- Ability to obtain and maintain Transport Canada security clearance.

- Ability to obtain an Airside Vehicle Operator's Permit (AVOP) and Radio Telephone Operator's Permit within two weeks of starting employment.

COMPENSATION & SCHEDULE

- This full-time position offers a competitive hourly wage commensurate with experience and a 40-hour work week.

WHY JOIN US?

Working at London International Airport provides an opportunity to contribute to the safety, security, and efficiency of a critical transportation facility. This role offers meaningful, hands-on work in a dynamic aviation environment, with opportunities to develop specialized skills in both airport maintenance operations and emergency response.
